

San Joaquin Connect III

High-Risk Transition Team — Enhanced Full Service Partnership

At Telecare's San Joaquin Connect III program, you have the opportunity to connect with a group of people who are here to be your support team.

We believe that recovery can happen, and we will do whatever it takes to help our members achieve their goals in life. We have a multidisciplinary team that consists of psychiatrists, nurses, clinical directors, clinicians/team leads, peer mentors, personal service coordinators, and a housing specialist, who are all here to help you on your path.

Our program is based on the Full Services Partnership (FSP) model, where staff create a supportive environment, including wraparound services that are based on your needs, hopes, and dreams. We also connect you to the proper resources that can help you achieve your goals.

What to Expect

Your recovery starts with you. After an initial assessment, staff will work with you to develop life goals and identify areas you want to focus on during your time with the program. Our goal is to empower and assist you in stabilizing your health, help you meet your goals, and link you to services that will further support you in the community.

Our culture is based on recovery. We believe in respect and non-judgment, and we celebrate individual uniqueness. We care about the interpersonal relationships we develop so we can foster a supportive program setting.

Our staff are passionate, resourceful, and motivated. They are your partners in recovery, and will be with you throughout your journey.

Our goal is to be a place that helps you thrive. We want you to be the leader of your recovery journey, and to create the life you want for yourself.

“The goal of recovery is not to become normal. The goal is to embrace the human vocation of becoming more deeply, more fully human.”

— PATRICIA DEEGAN, PHD, FOUNDER OF COMMONGROUND

Our Story

Telecare is a family- and employee-owned company that has been treating individuals with serious mental illness since 1965. We specialize in outcomes-driven services for individuals with complex needs who are at risk of crisis and hospitalization. Our programs are recovery-focused and clinically effective and are designed in partnership with local, county, state, and other behavioral health organizations. We provide services in multiple states and have more than 4,000 employees.
